FERNE

have a seat.

A new brand based on over 30 years of experience.

We believe that everyone deserves to be surrounded by beauty and comfort. That's why we have created FERNE: a fresh brand of outdoor and indoor furniture, manufactured in Poland, in the heart of Europe. FERNE responds to the growing demand for furniture that is both comfortable and aesthetic. The brand is based on more than 30 years of Prosperplast's experience, offering high-quality products that are both comfortable and beautiful. Our furniture, produced in Central Europe, fits gardens, homes, and commercial spaces such as offices, cafes, and hotels.

FERNE is our latest brand. Prosperplast, a family company, specializes in innovative plastic processing technologies. We are a global organization with local production plants in small towns in Southern Poland, selling products in more than 90 countries.

Over the years, we have focused on injection molding, blow molding, and rotational molding—each offering different plastic forming methods, providing new uses and applications.

Our three decades of business operations have given us extensive experience and unique know-how. Our team of experts and modern machinery guarantee top quality. We rely on extensive infrastructure, with our own transport fleet and over 200 thousand square meters of warehouse and production space in Poland, Germany, Czechia, and Hungary. This allows us to successfully carry out projects and deliver innovative solutions that meet our customers' needs.

Since 1993, we have designed and produced numerous creative solutions for homes and gardens, including flower pots, rainwater tanks, garden tools, toolboxes, and storage systems. Now it's time for furniture.

We warmly invite you to visit the FERNE showroom at our headquarters in Rybarzowice, southern Poland.

Comfort-focused design.

User comfort is the priority of our brand. In designing FERNE furniture, we follow the latest global design trends, which contribute to the timelessness of our collections. With in-depth knowledge of materials and their unique properties - such as elasticity, lightness, and resistance to damage - we create furniture that is not only comfortable for everyday use but also easy to transport and store.

Every FERNE furniture model is designed with the user's maximum comfort in mind, achieved without the need for additional upholstered elements. The use of plastics, which are 100% recyclable, allows us to offer products as an eco-friendly alternative to furniture made from valuable primary resources like wood or rattan.

Quality widely available.

We are deeply convinced that furniture of the best quality should be available to anyone who values beauty and comfort. At FERNE, our goal is to offer first-rate products at affordable prices. To achieve that, we cooperate with renowned design studios from Poland and other countries.

As Prosperplast, based on our 30 years of experience, we have used the existing distribution channels, advanced logistics, and efficient manufacturing processes to turn our vision into reality. What matters to us as well is building long-lasting and committed relationships with our business partners. As we are in constant dialogue with our customers to make sure we understand their needs, we deliver timely and reliable solutions that meet their expectations.

The circular nature of plastics.

Circularity is one of the key standards at Prosperplast, alongside quality and safety. Our priority objective is to effectively manage resources in line with our philosophy of sustainable development.

Currently, recycled materials from external sources constitute around 40% of all the materials used in our manufacturing plants. We are constantly increasing the use of the recycle thanks to the rapid growth of the plastic recycling sector in Europe.

The furniture by FERNE is characterised by its durability, lightness, and 100% recyclability.

As a large manufacturer, we build internal closed loops of resources, water, and energy. The closed-loop production process reduces the use of industrial water and heat. What's more, we have our own photovoltaic power plant to reduce our carbon footprint even further. In 2023, thanks to our resource management strategies, only 0.5% of our plastic waste had to be recycled externally.

Rooted in local furniture heritage.

Hardworking, professional, and innovative — the people who live in our region have always been like this. That's why FERNE draws on the rich local furniture tradition that dates back to the 19th century. It was then that bentwood furniture manufacturing developed in the city of Bielsko-Biala and in the region, following the methods by Michael Thonet. As an outstanding entrepreneur with a pioneer spirit, he launched the production of beautiful and functional beechwood furniture, accessible to the general public.

In the 1920s and 1930s, our region was also a leading manufacturing centre of nickel-plated bent tubes furniture. It was from here that Bauhaus icons, created by excellent designers such as Bruno Weil and Marcel Breuer, were sent out into the entire world.

Building on the legacy of Michael Thonet, we have written a new chapter of the local history of furniture manufacturing. At Prosperplast, we produce affordable, durable, and lightweight furniture with a timeless design aesthetic, at the same time taking up new challenges and using innovative plastics processing technologies. Our products are environment-friendly and fully recyclable.

Redefining excellence.

The Brene Collection by FERNE has been honored with the prestigious German Design Award 2025, recognizing its innovative design, exceptional functionality, and timeless aesthetic. This esteemed accolade, presented by the German Design Council, celebrates outstanding contributions to the field of design and highlights projects that push boundaries while remaining relevant in a global context.

As one of the most respected awards in the design industry, the German Design Award stands as a benchmark for excellence, rewarding products and concepts that redefine creativity and set new standards for innovation. This recognition further underscores FERNE's commitment to merging the legacy of traditional craftsmanship with modern, sustainable solutions that resonate with contemporary lifestyles.

FERNE

Brene

The BRENE collection draws inspiration from timeless and iconic bentwood furniture.
In the photos: Chairs and armchairs from the BRENE collection,
elegantly arranged alongside other furniture pieces.

Timeless and light beauty.

The BRENE collection redefines design. It has been inspired by the timeless and iconic bentwood furniture which was manufactured in the region of Bielsko-Biała in the early 20th century.

The projects are marked by visual lightness and elegance, which match both modern and classic spaces. The cohesive colour palette has been carefully designed to create one-of-a-kind arrangements by freely combining pieces in different colours. All of the above makes the BRENE collection perfect for versatile uses.

When designing the furniture, we placed emphasis on human-oriented ergonomics, with the users' needs in mind. The seats and backrests are made of breathable slats and they adapt naturally to the body shape for ultimate comfort. All the items in the collection are lightweight and easy to carry. Their construction prevents water pooling, so they are hard-wearing and easy to clean as well. With its top-notch quality, durability, and timeless design, the BRENE collection is made to last. What's more, particular pieces can be stacked, which makes their storage extremely convenient. All these features mean that every element of the BRENE collection is a synonym for elegance, corresponding with the needs of the most demanding design lovers. The collection consists of a coffee table, an side table, a dining table, a chair, a chair with armrests, and an armchair.

The lightweight construction of the BRENE collection ensures that all items are easy to move and store.

In the photo: BRENE armchairs showcased in a dynamic logistics environment, highlighting their versatility and adaptability.

In the photo on the right: BRENE armchairs elegantly paired with a matching side table, creating a stylish and functional ensemble.

have a seat.

FERNE

The seats and backrests of the BRENE collection are crafted from breathable slats that naturally adapt to the body's shape, ensuring ultimate comfort.
In the photo: A thoughtfully curated arrangement of chairs, armchairs, chairs with armrests, and side tables graces the terrace of the Pod Dębocem restaurant, combining comfort with style in a charming outdoor setting.

Brene

The seating options that form the BRENE collection are exceptionally practical and comfortable.

The triangular slats ensure airiness and comfort of sitting. The lightweight construction of the chairs makes them easy to move and store. All the BRENE chairs are moisture-resistant and can be stacked.

They are a perfect choice for both outdoors and indoors — they will work well in any conditions that require durability and resistance.

have a seat.

Side table

FBR554

Coffee table

FBR584

Dining table

FBR588

Brene

BRENE tables, coffee tables, and side tables allow for comprehensive space arrangement. Thanks to the use of slat designs, the tables are lightweight, easy to clean, yet solid and durable.

The stackable feature makes the collection functional wherever storage is important. The legs for the table and coffee table are packaged separately and are very easy for the user to assemble, which improves logistical aspects.

FERNE

Rimo

The RIMO collection seamlessly blends classic elegance with modern materials and functionality. Featured in the photos: high bar chairs at a stylish counter, alongside chairs and armchairs perfectly complementing a kitchen space.

Light classic collection.

The RIMO collection combines the elegance of classic bentwood furniture with modern design and functionality. Here, tradition meets innovation, and the classic form is paired with modern moulding methods and materials. The gentle rounded shapes that allude to Thonet's designs are coupled with stylish colours to give the furniture a delicate and fashionable look.

The smooth lines and "bent" elements create a harmonious combination of classic design and modern solutions. Made with precision and attention to detail, the collection is of prime quality. The RIMO furniture is functional and comfortable while retaining timeless aesthetics. It's a sustainable and affordable alternative to traditional wooden chairs.

The collection comprises a chair, a chair with armrests, an armchair, two bar chairs of different heights, a round side table, a round high side table, coffee tables, and dining tables.

In the photos: an armchair and a low bar chair from the RIMO collection and a tall side table.

FERNE

RIMO furniture is functional and comfortable, while maintaining a timeless aesthetic.

with a restaurant table, complemented by high bar chairs at the bar counter.

Chair

FRIK568

Chair with armrests

FRIK658

Armchair

FRIK667

Rimo

The chairs from the RIMO collection are an example of a harmonious match between classic design and modern functionality.

The designers focused equally on how the chairs look and how comfortable they should be. This resulted in an original system of testing the ergonomics of the chairs and optimising their weight.

What's more, as the chairs are stackable, they can be easily rearranged and stored. Comfort and stability are ensured by the rubber chair feet.

Milane

The MILANE collection is characterized by a minimalist style, exceptional seating comfort, and streamlined logistics.
In the photos: a set of chairs, armchairs, a chair with armrests, and a side table in the garden.

Available comfort.

MILANE is an impressive collection of comfortable garden furniture. Its characteristics include the minimalist style, exceptional sitting comfort, and simple logistics. As monolithic forms are very popular among users, we have decided to create an entire collection in this spirit. By optimising the production process, we've made sure the collection is affordable for the wide public.

With their distinctive bends and soft shapes, all the pieces look strong and attractive, ensuring stability and durability. The single-point injection technology used in the MILANE collection created the smooth shapes of the furniture, emphasised by the satin finishing. The collection offers an array of subtle, timeless colours. MILANE comprises a chair, a chair with armrests, an armchair, and an side table that can also serve as a stool.
